SOLAR LEASE

The Planet's Most Powerful Solar® for \$0 Down

With a SunPower Lease you can go solar and start saving on your electricity bill immediately without a large up-front expense. You also have the flexibility to purchase your system later with our purchase options, which can increase the value of your home.

SUNPOWER®

SunPower Lease Benefits

- « You know what you are putting on your roof—The Planet's Most Powerful Solar®, backed by a financially sound, stable company.
- « System maintenance, insurance and performance guaranteed by SunPower, or your money back.
- « Low monthly payments with a zero down option
- « Lease-to-own—Option to buy your system after six years or at the end of your lease term
- « Most offer the ability to expand your system later to meet your future energy needs (electric vehicles, home addition)
- « Flexible end of lease options —Renew the lease, purchase the system or request removal at no cost
- « Professional installation with the highest standard of quality and customer service from our best-in-class network of installers
